Family Engagement Activity – Session 9

- Go on an art scavenger hunt!
- Where do you see art around you? Choose a location – you can do this activity at home, in a park, at a restaurant, or any other safe location. Set boundaries and rules for exploring. Set a timer, then search for examples of art where you are. Remember that acting, music, graphic design, and architecture are all art. When the timer stops, use your Six Bricks or other materials to build what you found. Be sure each person explains what they built to the whole family.
- On your Activity Log, write down what art you found.
